

SAFETY DATA SHEET

According to Work Health and Safety Regulations 2011 and National Model Code of Practice for the preparation of Safety Data Sheets for Hazardous Chemicals

Version 1.1

Issue date: 09/05/2020 Revision date: 09/05/2020

SDS Record Number: CSSS-TCO-010-140806

1. Identification of the material and supplier

Material name:

SINOPEC truck wash

Product Code:

Other means of identification:

Recommended use:

The fluids for use in hydraulic brake systems of motor vehicles

Restrictions on use:

Not available

Manufacturer:

Supplier(Manufacturer):

SINOPEC LUBRICANT CO.,LTD

Address:

No. 6 Anning Zhuang West Road, Haidian District, Beijing, P.R.China

Contact person(E-mail):

csc.lube@sinopec.com

Telephone:

86-800-810-9886

Fax:

86-10-82410856

Emergency number:

86-800-810-9886

Australia Supplier(Manufacturer):

International Lubricant Distributors Pty. Ltd.

Address:

Level 3, 43 Kishorn Road, Applecross, 6153 Australia

Contact person(E-mail):

Telephone:

Fax:

+61 8 9381 1788

Emergency number:

1300 558 939

New Zealand Supplier(Manufacturer):

Waitomo Lubricants Limited (GST 104255744)

Address:

15 Ellis Street, Frankton, Hamilton, PO Box 5125, Hamilton 3242

Telephone:

+64 7 847 0829

Fax:

+64 7 846 0032

Emergency number:

+64 7 847 0829 (24 Hrs)

New Zealand Supplier(Manufacturer):

MTS ENERGY LTD

Address:

44 Northcote Road, North Shore, Auckland 0627, New Zealand

Telephone:

+64 9 480 8921

Fax: **Emergency number:**

+64 9 480 8398 0800 399 993 (24 Hrs)

New Zealand Supplier(Manufacturer):

Ixom Operations Pty Ltd (Incorporated in Australia)

NZBN: 9429041465226

Address:

Telephone:

166 Totara Street, Mt Maunganui South, New Zealand

Contact person(E-mail):

+64 9 368 2700

Fax:

+64 9 368 2710

Material name: SINOPEC truck wash

Version #: 1.1

2. Hazards identification

Australia:

Not classified as Hazardous according to criteria of National Occupational Health and Safety Commission (NOHSC), Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

New Zealand:

Not classified as Hazardous according to the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001, New Zealand. Not classified as Dangerous Goods for transport according to the New Zealand Standard NZS 5433:2012 Transport of Dangerous Goods on Land.

GHS label elements:

Hazard Pictograms: : No hazard pictogram is used.

No signal word is used. Signal word:

Hazard statement: Not applicable.

Precautionary statement:

Prevention: Not applicable. Not applicable. Response: Storage: Not applicable. Disposal: Not applicable. Other hazards which do not result in Not applicable.

classification:

3. Composition/information on ing	redients
-----------------------------------	----------

Components	CAS No.	Percent
Additive	Mixture	3~45%
Base oil	Mixture	55~97%

4. First aid measures

Inhalation: Remove victim to fresh air and provide oxygen. Get medical attention. Skin: Flush with water, and then wash with soap and water. Get medical attention. Eye: Flush with water for 15 minutes. If irritation occurs, get medical attention.

Ingestion: Do not induce vomiting. Get medical attention.

Symptoms caused by exposure: Not available.

Medical Attention and Special Treatment: Treat symptomatically.

5. Fire-fighting measures

Suitable extinguishing media: Carbon dioxide, dry chemical, foam and water spray.

Extinguishing media which must not be

used for safety reasons:

Not available.

Specific hazards arising from the

Fumes, smoke, carbon monoxide, carbon dioxide and other decomposition products, in the case of incomplete combustion.

chemical:

Special protective equipment and precautions for fire fighters:

Fire-fighters should wear appropriate protective equipment and self-contained breathing

apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Material name: SINOPEC truck wash

SDS Australia&New Zealand Version #: 1.1 Issue date: 09-05-2020. Revision date: 09-05-2020. 2/8

6. Accidental release measures

Personal precautions. protective equipment and emergency procedures:

Provide adequate ventilation. Avoid inhalation of vapour. Avoid skin and eye contact. Refer

to section 8 of SDS for personal protection details.

Do not allow material to be released to the environment without proper governmental

permits.

Methods and materials for containment

and cleaning up:

Absorb spills with sand, earth, inert material. Wipe up the ground. Prevent, by any means available, spillage from entering drains or water course. Label the containers for recycling clearly. If occurs major spills, advise emergency services.

7. Handling and storage

Environmental precautions:

Precautions for safe handling:

Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary but may not, by themselves, be sufficient. Review all operations which have the potential of generating and accumulating an electrostatic charge and/or a flammable atmosphere (including tank and container filling, splash filling, tank cleaning, sampling, gauging, switch loading, filtering, mixing, agitation, and vacuum truck operations) and use appropriate mitigating procedures.

Conditions for safe storage, including any incompatibilities:

Keep out of reach of children. Keep containers securely sealed. Avoid contamination and store away from moisture. Protect containers against physical damage and check regularly for leaks. Store in a cool, dry, well-ventilated area. No smoking, naked lights or ignition sources. Avoid storage with oxidisers. Empty containers retain residue (liquid and/or vapor) and be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME.

Storage regulation

This product should be stored and used in a well-ventilated area away from naked flames, sparks and other sources of ignition.

8. Exposure controls/personal protection

Control parameters - exposure

Not available

standards, biological monitoring:

Exposure Levels

Occupational exposure limits:

- Cooking and Cook

No exposure standards have been established for this material.

TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.

Appropriate engineering controls:

Provide sufficient ventilation to keep airborne levels as low as possible. Where vapours or mists are generated, particularly in enclosed areas, and natural ventilation is inadequate, a

local exhaust ventilation system is required.

Personal protective equipment:

Eye/face protection: Chemical Goggles, or Safety glasses with side shields.

Material name: SINOPEC truck wash SDS Australia&New Zealand Version #: 1.1 Issue date: 09-05-2020. Revision date: 09-05-2020. 3/8

Use protective clothing and shoes which are chemically resistant to this material. Use Skin protection:

protective gloves which is chemically resistant to this material.

Respiratory protection: If engineering controls do not maintain airborne concentrations to a level which is adequate

to protect worker health, an approved respirator must be worn.

Hand protection: Use protective gloves which is chemically resistant to this material.

9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance:

Physical state: Liquid Form: Liquid Color: Red Odor: Mild odor Odour threshold: Not available

PH: 6-9

Melting point/Freezing point: Not available

Boiling point and boiling range: 100°C

Flash point: Not available **Pour Point:** Not available **Evaporation rate:** Not available Flammability (solid, gas): Not available Upper/lower flammability or explosive Not available

limits:

Vapor pressure: Not available Vapor density: Not available

Density: 1.02

Solubility: Soluble in water. Partition coefficient (n-octanol/water): Not available **Auto-ignition temperature:** Not available **Decomposition temperature:** Not available Viscosity, dynamic: Not available Not available Specific heat value: Particle size: Not available Volatile organic compounds content: Not available % volatile: Not available Saturated vapour concentration: Not available Release of invisible flammable vapours Not available

and gases:

Additional parameters

Not available Shape and aspect ratio: Crystallinity: Not available **Dustiness:** Not available Surface area: Not available Degree of aggregation or agglomeration: Not available Ionisation (redox potential): Not available Biodurability or biopersistence: Not available

Material name: SINOPEC truck wash

Version #: 1.1 Issue date: 09-05-2020. Revision date: 09-05-2020.

10. Stability and reactivity

Reactivity: Stable under recommended transport or storage conditions.

Chemical stability: Stable under normal temperatures and pressures.

Possibility of hazardous reactions: No dangerous reactions known.

Conditions to avoid: Incompatible materials. Extreme heat, high energy sources of ignition, strong oxidizers.

Incompatible materials: Strong oxidizing agents.

Hazardous decomposition products: Fumes, smoke, carbon monoxide, carbon dioxide and other decomposition products, in the

case of incomplete combustion.

11. Toxicological information

Toxicological data:

Acute toxicity:

Not available LD50(Oral, Rat): LD50(Dermal, Rabbit): Not available LC50(Inhalation, Rat): Not available LD50(Oral, Rat): Not available LD50(Dermal, Rabbit): Not available LC50(Inhalation, Rat): Not available Skin corrosion/Irritation: No data available. Serious eye damage/irritation: No data available. No data available. Respiratory or skin sensitization: Germ cell mutagenicity: No data available. Carcinogenicity: No data available. Reproductive toxicity: No data available. STOT- single exposure: No data available. STOT-repeated exposure: No data available.

Other information This product has no known adverse effect on human health.

No data available.

Information on routes of exposure

Symptoms related to exposure

No data available.

effects from exposure

Aspiration hazard:

12. Ecological information

Ecotoxicity:

Acute t	oxicity	Time	Species	Method	Evaluation	Remarks
LC50	N/A	96h	Fish	OECD 203	N/A	N/A
EC50	N/A	48h	Daphnia	OECD 202	N/A	N/A
EC50	N/A	72h	Algae	OECD 201	N/A	N/A

Persistence and degradability: This product is expected to be inherently biodegradable.

Bioaccumulative potential: Bioaccumulation is due to the solubility in Water of the product; therefore bioavailability to

aquatic organisms is high.

Mobility in soil: When released into the environment, adsorption to sediment and soil will be the

predominant behavior.

Material name: SINOPEC truck wash

Version #: 1.1 Issue date: 09-05-2020. Revision date: 09-05-2020.

SDS Australia&New Zealand

5/8

Other adverse effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Safe handling and disposal methods:

Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Disposal of any contaminated packaging:

Australia

The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

New Zealand:

Product Disposal

Product wastes are controlled wastes and should be disposed of in accordance with all applicable local and national regulations. This product can be disposed through a licensed commercial waste collection service. In this specific case the product is a combustible substance and therefore can be sent to an approved high temperature incineration plant for disposal. Personal protective clothing and equipment as specified in Section 8 of this SDS must be worn during handling and disposal of this product. The ventilation requirements as specified in the same section must be followed, and the precautions given in Section 7 of this SDS regarding handling must also be followed. Do not dispose into the sewerage system. Do not discharge into drains or watercourses or dispose where ground or surface waters may be affected. In New Zealand, the disposal agency or contractor must comply with the New Zealand Hazardous Substances (Disposal) Regulations 2001. Further details regarding disposal can be obtained on the EPA New Zealand website under specific group standards.

Container Disposal

The container or packaging must be cleaned and rendered incapable of holding any substance. It can then be disposed of in a manner consistent with that of the substance it contained. In this instance the packaging can be disposed through a commercial waste collection service. Alternatively, the container or packaging can be recycled if the hazardous residues have been thoroughly cleaned or rendered non-hazardous. In New Zealand, the packaging (that may or may not hold any residual substance) that is lawfully disposed of by householders or other consumers through a public or commercial waste collection service is a means of compliance with regulations.

14. Transport information

Australia:

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

New Zealand:

Not classified as Dangerous Goods for transport according to the NZS 5433:2012 Transport of Dangerous Goods on Land.

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea. Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
