

Product	<b>ILD SOLVENT FREE CITRUS HAND CLEANER</b>
Summary	<b>Product description</b>  <b>ILD SOLVENT FREE CITRUS HAND CLEANER</b> has been developed with the end user in mind, while in our research stage we surveyed a number of automotive mechanics and found the same issues with solvent based hand cleaners - great at removing oil and grease yet after months of daily use left the hands dry and in extreme cases skin was cracked and flaky.

## ILD SOLVENT FREE CITRUS HAND CLEANER

Our chemists came up with a solvent free formula that helps prevent drying out of the skin; we use natural orange oil which leaves a pleasant perfume on the hands after use. Poly granules are utilized to work like hundreds of miniature scrubbing brushes that remove the harshest soils without damage to the skin.

## PHYSICAL PROPERTIES

**ILD SOLVENT FREE CITRUS HAND CLEANER** is a non-flammable liquid, bright yellow in color. It has a pleasant citrus odor.

## CHEMICAL PROPERTIES

**ILD SOLVENT FREE CITRUS HAND CLEANER** contains orange oil.
